## WORK HISTORY

**Digi Vikerta | Frontend Developer I** Remote | 09/2024 – Present

- Developed responsive and intuitive web applications using React, Tailwind CSS, and standard CSS ensuring a smooth experience across various devices and screen sizes.
- Integrated multiple APIs into React applications, enabling dynamic data display and real-time functionality.
- Created visually appealing and maintainable UI components by leveraging Tailwind CSS utility classes along with custom styles.
- Enhanced frontend performance through effective state management and optimized coding techniques, resulting in faster and more responsive applications.

**Internshala | College Ambassador I** Remote | 08/2024 – 02/2025

- Spearheaded and promoted Internshala programs on campus, increasing student engagement in internships and training sessions by clearly communicating available opportunities.
- Utilized both social media and traditional outreach methods to raise awareness of Internshala's services, successfully driving higher student registrations and participation.

## EDUCATION

<b>Mangalaytan University</b>	<b>8.5 CGPA</b> , Aligarh
Bachelor of Computer Applications (BCA)	July 2022 - June 2025

## PROJECTS/OPEN-SOURCE (VISIT MY GITHUB FOR MORE DETAILS)

**Finquity | finquity.net**

- Developed a platform to manage user investments with a seamless, responsive UI optimized for all mobile views.
- Utilized React, Tailwind CSS, and Axios to create a smooth and interactive user experience.

**Team Nitians | teamnitians.com**

- Created a college listing platform inspired by College Dunia, providing detailed information about various colleges.
- Leveraged React, Tailwind CSS, and Axios to ensure a responsive and user-friendly design.
